

For the last Teknival, 25 000 people came for the same passion : The Sound !

As you know, this teknival took place without any help from the government, after the many problems and deceptions of previous years. The government confiscated the entire sound system of the following artists, even after positive reports from the association for the prevention of drugs.

If any other artists have experienced the same problem, and we don't have your details, please get in contact with ONE (Ivan) or RIPOSTE (Alex), in order that we can combine all cases and use the same lawyer.

Our lawyers have explained to us that we need to submit to them, as soon as possible, all the information concerning each case and the rental costs incurred.

The rental companies must put their individual cases to the public prosecutor in order to explain that they need their sound systems to continue in business.

For the moment, the government will keep the sound systems for 6 months ; so you need to ask your company to write to the public prosecutor as soon as possible.

We need to raise 2000 € for the lawyer. Later we'll need to raise more for other procedures. That's why we are asking you all for your help. You can make a donation directly with paypal. If we raise too much money, we will be organising a huge party to hopefully celebrate the outcome of our case and to thank all of you who have donated.
